Discovery

The energy efficiency rating is a measure of the overall efficiency of a home. The higher the rating the more energy efficient the home is and the lower the fuel bills are likely to be.

England & Wales

The environmental impact rating is a measure of home is impact on the environment in terms of Carbon Dioxide (CO2) emissions. The higher the rating the less impact it has on the environment.

Estimated energy use, carbon dioxide	(CO2) emissions and fuel costs of this home
--------------------------------------	---

	Current	Potential
Energy use	126 kWh/m² per year	119 kWh/m² per year
Carbon dioxide emissions	1.4 tonnes per year	1.4 tonnes per year
Lighting	£56 per year	£35 per year
Heating	£178 per year	£180 per year
Hot water	£72 per year	£72 per year

Based on standardised assumptions about occupancy, heating patterns and geographical location, the above table provides an indication of how much it will cost to provide lighting, heating and hot water to this home. The fuel costs only take into account the cost of fuel and not any associated service, maintenance or safety inspection. This centificate has been provided for comparative purposes only and enables one home to be compared with another. Always check the date the certificate was issued, because fuel prices can increase over time and energy saving recommendations will evolve.

To see how this home can achieve its potential rating please see the recommended measures.
